

600 Block of Market Street Project

Project Description: This project will reconstruct Market Street and adjoining sidewalks between Clinch Avenue and W Church Avenue. This project will alleviate the severe cross-slope on this important section of downtown sidewalk. The street will be concrete and the sidewalks will have a band of integrally colored, stamped concrete closely matching the color and pattern of the 700 Block of Market Street. In addition, the project will include new LED street lights, structural soil cells and tree wells for five street trees.

600 Block of Market Street - Looking South

Schedule:

Bid Opening: September 19, 2018

Notice to Proceed: May 6, 2019
