

W Jackson Avenue Streetscapes

Project Description: This project originated in 2005 through funding from a Tennessee Department of Transportation (TDOT) High Priority Project (HPP) for the Upper Second Creek/Old City Greenway, PIN 107380.00. The TDOT contract calls for the City of Knoxville to design and construct a pedestrian connection along W. Jackson Avenue from N. Broadway to S. Gay Street. The proposed project will produce the desired pedestrian connection and the streetscape improvements will encourage redevelopment along the W. Jackson Avenue corridor. KUB has completed water and gas relocations in advance of this streetscape improvements project.
