Project Description: This project will rehabilitate approximately 2000 linear feet of stormwater drainage pipe at various locations in the City using the cured-in-place pipe method. The pipe segments in this project have been deemed in ‘poor’ condition by the Engineering Department and given a high priority to rehabilitate or replace to prevent more serious problems from further degradation or total pipe failure.

Locations include:

- Approximately 192 along N Central Street near from E Fourth Avenue
- Approximately 334 feet along Fern Street near Catalpa Avenue
- Approximately 314 feet along Gratz Street near Lovenia Avenue
- Approximately 121 feet along Summer Place near Locust Street
- Approximately 215 feet along Washington Avenue near N Olive Street
- Approximately 907 feet at Worlds Fair Park along Worlds Fair Park Drive

Schedule:
Bid Opening: February 11, 2021
Notice to Proceed: July 19, 2021
Contract Completion Date: January 15, 2022

Current Contract Price: $668,938

Engineering Department August 2021 Status: This construction contract was awarded at the March 9, 2021 City Council Meeting. The contract is fully executed and a pre-construction meeting was held. Point repairs and pipe cleaning has commenced in Worlds Fair Park.
