Jackson Avenue Ramps Project

Project Description: The Jackson Avenue Ramps are included within the TDOT Bridge Inventory and are inspected on a biannual basis. The poor rating of the ramps resulted in qualification for participation in the federal bridge replacement program. Because TDOT is allowing local agencies to administer projects that affect local streets, the City will administer all phases of this project.

Schedule:
Bid Opening:
May 9, 2019
Notice to Proceed:
September 16, 2019
Contract Completion Date:
September 15, 2020

Current Contract Price:
$6,454,538

Engineering Department June 2020 Status: The ramps are fully removed. All columns have been poured for the east and west ramps with the exception of one column on the east ramp. Concrete work continues. An electrical duct bank is currently being constructed on the west side.

Project Designer: Vaughn & Melton Consulting Engineers, Inc.
