Knoxville, TN 37902

Re: Supreme Court Building Phase I Environmental Site Assessment Report
617 Cumberland Avenue Knoxville, Tennessee 37902

Dear Ms. Wallace:

Please find enclosed the Phase I Environmental Site Assessment for the Old Supreme Court Building in Knoxville, Tennessee. Recommendations for the Phase II Investigation that is currently awaiting contract approval are included in the report.

Quantum Environmental & Engineering Services, LLC (QE2) appreciates the opportunity to perform this work for the City of Knoxville. Please feel free to contact me or Jessica Lindbom at (865) 689-1395 if you have questions or comments.

Sincerely,

A handwritten signature in blue ink that reads "Helen S. Hennon".

Helen S. Hennon, P.E.
Vice President

1.0 EXECUTIVE SUMMARY

On June 9, 2015, Quantum Environmental & Engineering Services, LLC (QE2) conducted a site visit in support of a Phase I Environmental Site Assessment (ESA) of the Old Supreme Court Building (Site) located at 617 Cumberland Avenue in Knoxville, Knox County, Tennessee. The Site is identified as Parcels 11, 12, 13, 14, and 15 of Knox County Tax Map 94. The property owner is recorded as the State of Tennessee. Previous owners and parcels that comprise the Site are identified as: State of Tennessee Supreme Court Property, Pure Oil of Ohio, L. Burgess, C. Bentley, Church-Henley Co. Inc., P.H. McGinnis, Dr. L Caylor, and State of Tennessee (Arnold Hotel Property). Pure Oil of Ohio is indicated at the location of a gasoline filling station found in a historic Sanborn map located in the southwest corner of the Site property. The former gasoline filling station owned by Pure Oil of Ohio is considered a recognized environmental condition (REC).

This Phase I ESA was performed in accordance with QE2 proposal number 2015-048, and in general accordance with the consensus document known as ASTM E 1527-13, a guide for conducting Environmental Site Assessments and ASTM Standard E2600-10, Standard Guide for Vapor Encroachment Screening on property involved in real estate transactions.

The Site is comprised of an approximate 2.0-acre tract of land that has been improved with a six-story (plus a penthouse) approximate 68,000 square foot, cinderblock and brick building that was historically developed as the State Supreme Court facility. The Site has been vacant since approximately 2007. The Site is also improved with a small guard shack, associated asphalt-paved driveway and parking areas, and landscaping.

A cursory summary of findings is provided below. However, details are not included or fully developed in this section, and the report must be read in its entirety for a comprehensive understanding of the items contained herein.

- According to reviewed historical information, the Site was densely developed as residential from at least 1890 until sometime in the 1950s, when most of the former residential structures were replaced with large commercial buildings. The Site continued to develop until sometime prior to 1992 when it was solely the Supreme Court Building with associated parking. Based on a review of the Sanborn maps and city directories, a gasoline filling station was indicated at 716-720 Henley Street, on the southwest corner of the Site in the 1950 and 1968 Sanborn maps. The locations of any underground storage tanks (USTs) are not indicated. The presence of the filling station and the potential for underground storage tanks or groundwater/soil contamination is a REC. It is recommended that further

investigation be conducted at the Site to evaluate the presence of remaining USTs and any potential contamination from this facility.

- The Site was identified in the Environmental Data Resources, Inc. (EDR) regulatory report on the EPA FINDS database. According to a representative with Knox County Air Quality Management, the Site was historically the location of an ambient air monitoring station. The monitoring station was moved to the new Supreme Court building when the Old Supreme Court building was closed. The Old Supreme Court building is also equipped with an incinerator in the basement. This incinerator may have historically had an air emissions permit; however, it was not listed on the EDR report and there was not one on file in the EPA Envirofacts database. According to the EPA Envirofacts database, FRS Facility Detail Report, the Site is listed as an Air Monitoring Site. The FRS Facility Detail Report is included in Appendix 14.11. The listing of the Site on the FINDS database is not considered a REC.
- A total of forty-one additional facilities were listed in the EDR report (some facility addresses were listed more than once). Based on distance, assumed groundwater flow direction in the area of the Site, current status, and/or topographic gradient from the Site, none of the identified facilities appear to be a REC or a Vapor Encroachment Concern (VEC) to the Site. A complete list of the identified facilities is located in the EDR Radius Map Report in Appendix 14.5. Additionally, EDR reported nine unmapped (orphan) facilities. None of the listed facilities were observed to be adjacent or nearby to the Site during the Site reconnaissance and are not considered a REC.
- During the review of City Directories and Sanborn maps, several filling stations were identified on adjacent properties. One facility was identified to the northwest, two facilities to the north, one facility to the south, and two facilities to the west, across Henley Street. Although no physical evidence or historical record of contamination release was noted during the current assessment, contamination may have migrated from these facilities and impacted the Site, constituting a REC. The adjacent locations have been redeveloped, and are now mostly occupied by large multi-story structures with deep foundations. During the construction of the large structures, any existing USTs and associated contamination would likely have been removed or assessed. The possibility of contamination on the Site from these former off site filling stations is low, however further investigation would be necessary to confirm or deny any impacts to the Site.
- No exterior above-ground storage tanks were observed during the Site reconnaissance. Based on a previous *Hazardous Materials Screening Report* by QE2 dated September 19, 2012; an underground storage tank (UST) of unknown capacity is located behind the building (north side) near the bay door. According to the previous report, the UST of

unknown capacity was observed with 2 feet of remaining diesel product (approximately 200-300 gallons). An unmarked access port was observed in this area and it is assumed to be the access for the UST. This is considered a REC.

QE2 has performed a *Phase I Environmental Site Assessment* in conformance with the scope and limitations of ASTM Practice E 1527-13 and ASTM Standard E2600-10, Standard Guide for Vapor Encroachment Screening for the Old Supreme Court Building located at 617 Cumberland Avenue in Knoxville, Tennessee. Any exceptions to, or deletions from, this practice are described in Section 10.0 of this report. This assessment has revealed evidence of **RECs** in connection with the property.

Based on the date of construction of the Site building and a review of the previous *Hazardous Materials Screening Report*, several building materials were found to contain or are assumed to be asbestos-containing materials (ACMs). It is recommended that a comprehensive hazardous materials survey and sampling event be conducted to ensure the environmentally compliant handling and disposal of all hazardous or special wastes, in accordance with all State, and Federal regulations, if renovation or demolition is planned.

2.0 INTRODUCTION

Quantum Environmental & Engineering Services, LLC (QE2) conducted a Phase I Environmental Site Assessment (ESA) of the Old Supreme Court Building (Site) located at 617 Cumberland Avenue, Knoxville, Tennessee. The work was authorized by Ms. Anne Wallace of the City of Knoxville, Office of Redevelopment, in accordance with proposal #2015-048. The Site reconnaissance for the Phase I ESA was performed on June 9, 2015.

2.1 PURPOSE

The purpose of this assessment was to identify, to the extent possible, *Recognized Environmental Conditions (RECs)* in connection with the Site in support of a potential real estate transaction. This Phase I ESA was prepared in accordance with American Society of Testing and Materials (ASTM) Standard E 1527-13 *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* and ASTM Standard E2600-10, *Standard Guide for Vapor Encroachment Screening* on property involved in real estate transactions. Phase I ESAs are conducted for parcels of real estate with respect to the range of contaminants within the scope of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), and petroleum products. The practice for conducting Phase I ESAs, defined in ASTM E 1527-13, is intended to permit a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on CERCLA liability or *landowner liability protections (LLPs)*: that is, the practices that constitute “all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice” as defined at 42 USC §9601(35)(B). An evaluation of business environmental risk associated with a parcel of commercial real estate may necessitate investigation beyond that identified in ASTM E 1527-13.

The term *recognized environmental condition (REC)* is defined in the ASTM standard as the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release into structures on the property or into the ground, ground water, or surface water of the property. The term includes hazardous substances or petroleum products even under conditions in compliance with laws. The term is not intended to include *de minimis* conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate government agencies. The term *material threat* is defined as a physically observable or obvious threat which is reasonably likely to lead to a release, such as visible damage to a petroleum storage tank.

2.2 DETAILED SCOPE-OF-SERVICES

The following activities were conducted as part of this Phase I ESA:

- review of historical Site use information,
- review of physical and environmental data sources for the Sites and surrounding areas,
- Site reconnaissance of the Site and surrounding properties,
- interviews with the owner and local government officials, and
- report preparation.

2.3 SIGNIFICANT ASSUMPTIONS

No significant assumptions are required for the Site.

2.4 LIMITATIONS AND EXCEPTIONS

This Phase I ESA details the conditions at the Site observed on June 9, 2015, the date of the Site reconnaissance, and may not represent conditions at another time.

2.5 SPECIAL TERMS AND CONDITIONS

This report presents the findings of this assessment based on items normally addressed in a Phase I ESA. Our conclusions are based on public and private information regarding the Site and adjacent properties, information obtained from owner representative interviews (assumed to be accurate but not independently verified), and on our experience. QE2 does not represent that the Sites are free of environmental degradation beyond that actually identified during this assessment.

2.6 USER RELIANCE

Use of this document is authorized for the City of Knoxville.

3.0 SITE DESCRIPTION

3.1 LOCATION AND LEGAL DESCRIPTION

The Site is located at 617 Cumberland Avenue in Knoxville, Tennessee. Appendix 14.1 contains a Site Vicinity Map. Appendix 14.2 contains a Site Plan depicting the location and approximate boundaries of the Site. The Site is identified as Parcels 11, 12, 13, 14, and 15 of Knox County Tax Map 94. Based on information researched, the property is approximately 2.0 acres in size. Copies of the current Property Map and Details Reports from KGIS.org as well as available deeds are provided in Appendix 14.4.

3.2 SITE AND VICINITY GENERAL CHARACTERISTICS

The Site is located in a predominantly commercial area of Knoxville. The Site is bordered to the north by West Church Avenue followed by the UT Conference Center and the Hilton Hotel to the northeast. The Site is bordered by Locust Street to the east followed by the Duncan Federal Building. The Site is bordered to the south by Cumberland Avenue with law offices and the Medical Arts Building (a mixed residential/commercial retail building) with the post office and the State Supreme Court to the southeast. To the west of the Site is Henley Street followed by the Knoxville Convention Center.

3.3 CURRENT USE OF THE PROPERTY

The Site is currently vacant. According to Mr. Bryan Bathon, Property Manager with Jones Lang LaSalle, the building has been vacant since 2007. Prior to that time, the Site was the State Supreme Court building and also housed the Tennessee Bureau of Investigation (TBI) and other State offices. See Section 7.1 for additional information regarding past usage at the Site.

3.4 DESCRIPTION OF STRUCTURES, ROADS, OTHER IMPROVEMENTS ON THE SITE (INCLUDING HEATING AND COOLING SYSTEM, SEWAGE DISPOSAL, SOURCE OF POTABLE WATER)

The building onsite is an approximate 2.0-acre tract of land that has been improved with one multi-story office structure built in 1952. The structure is a combination of the 2-story Supreme Court wing and a 6-story office tower (plus basement and mechanical penthouse). The building is constructed of painted cinderblock, brick, and cement walls with marble accents. A ballasted membrane roof is located on the building. The interior of the structure is finished with plaster walls, plaster ceilings, painted drywall and joint compound, and wood paneling. The floors are finished with vinyl floor tile, carpet, and painted or bare concrete. The building was heated and cooled by a boiler/chiller loop system that is no longer in service and is mounted in the basement and on the roof of the Supreme Court wing. The remainder of the property consists of concrete- and asphalt-paved parking areas and landscaping.

Utility services including water, natural gas, and sewer are available through the Knoxville Utility Board (KUB).

3.5 CURRENT USES OF THE ADJOINING PROPERTIES

The Site is located in a primarily commercial area of downtown Knoxville, Tennessee. The current use of adjacent properties is described below.

Adjacent Properties

North	West Church Avenue with the UT Conference Center further north and a Hilton Hotel to the northeast.
East	Locust Street with the Duncan Federal Building beyond.
South	Cumberland Avenue with law offices and the Medical Arts Building (mixed residential/commercial retail) with the post office and the State Supreme Court building to the southeast.
West	Henley Street followed by the City of Knoxville Convention Center.

Based on the current use of the adjoining properties, no RECs were identified.

4.0 USER PROVIDED INFORMATION

Ms. Anne Wallace of the City of Knoxville, Office of Redevelopment, completed the User Questionnaire provided in Appendix 14.7.

4.1 TITLE RECORDS

Some title history records from the Knox County Property Assessor's Office were retrieved from electronic Owner Card information available on the Knoxville GIS (KGIS) website. According to the reviewed information, the Site is currently owned by the State of Tennessee. This information is discussed further in Section 5.4.1.

4.2 ENVIRONMENTAL LIENS OR ACTIVITY AND USE LIMITATIONS

Ms. Wallace had no knowledge of any environmental liens or activity and use limitations for the Site.

4.3 SPECIALIZED KNOWLEDGE

Ms. Wallace did not have specialized knowledge or experience regarding the Site.

4.4 COMMONLY KNOWN OR REASONABLY ASCERTAINABLE INFORMATION

According to Ms. Wallace, the Site was developed for the State Supreme Court in Knoxville Tennessee and the associated offices used for state employees. The property has been vacant since the court moved into other facilities.

4.5 VALUATION REDUCTION FOR ENVIRONMENTAL ISSUES

Ms. Wallace indicated that the purchase price for the property reasonably reflects the fair market value.

4.6 OWNER, PROPERTY MANAGER, AND OCCUPANT INFORMATION

According to information reviewed through the Knox County Property Assessors office, the current owner is the State of Tennessee. The Site representative is Mr. Ron Laws, property manager with Jones Lang LaSalle.

4.7 REASON FOR PERFORMING PHASE I

This Phase I ESA was conducted to identify RECs, and to fulfill the all appropriate inquiries portion of the Code of Federal Regulations, Title 40 (40 CFR), Part 312 "Standards and Practices for All Appropriate Inquiry", as part of the requirements to qualify for the Landowner Liability Protection (LLP) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001. This Phase I ESA is in support of a potential property purchase/loan.

4.8 OTHER

No previous Phase I ESAs for the Site were provided for review. However, a previous *Hazardous Materials Screening Report* for the Old Supreme Court Building conducted by QE2, dated September 19, 2012 was reviewed. This report is discussed further in Section 5.2.

5.0 RECORDS REVIEW

5.1 STANDARD ENVIRONMENTAL RECORD SOURCES

QE2 employed Environmental Data Resources, Inc. (EDR), located in Milford, Connecticut, to conduct an environmental record review for this Phase I ESA. This review included a search of available environmental records for the Site. A copy of the full EDR Radius Map report is located in Appendix 14.5. A description of these databases is provided in the EDR report. They include facilities that are or were known to conduct or have conducted environmentally regulated activities involving hazardous substances or petroleum products. The following databases were reviewed by EDR for listed records/properties near the Site:

- NPL
- Proposed NPL
- NPL LIENS
- Delisted NPL
- CERCLIS
- CERC-NFRAP
- CORRACTS
- RCRA TSDF

The Site was identified in the Environmental Data Resources, Inc. (EDR) regulatory report on the EPA FINDS database. According to a representative with Knox County Air Quality Management, the Site was historically the location of an ambient air monitoring station. The monitoring station was moved to the new Supreme Court Building when the old Supreme Court building was closed. The old Supreme Court building is also equipped with an incinerator in the basement. This incinerator may have historically had an air emissions permit; however, it was not listed on the EDR report and there was not one on file in the EPA Envirofacts database. According to the EPA Envirofacts database, FRS Facility Detail Report, the Site is listed as an Air Monitoring Site. The listing of the Site on the FINDS database is not considered a recognized environmental condition (REC). A copy of the FRS Facility Detail Report is included in Appendix 14.11.

A total of forty-one additional facilities were listed in the EDR report (some facility addresses were listed more than once). Based on distance, assumed groundwater flow direction in the area of the Site, current status, and/or topographic gradient from the Site, none of the identified facilities appear to be a REC or a Vapor Encroachment Concern (VEC) to the Site. A complete list of the above identified facilities is located in the EDR Radius Map Report in Appendix 14.5.

EDR reported nine unmapped (orphan) facilities. None of the listed facilities were observed to be adjacent or nearby to the Site during the Site reconnaissance and are not considered a REC. The unmapped facilities are provided in the EDR Report in Appendix 14.5.

5.2 ADDITIONAL ENVIRONMENTAL RECORD SOURCES

A previous *Hazardous Materials Screening Report* for the Old Supreme Court Building conducted by QE2, dated September 19, 2012 was reviewed. According to the previous report, assumed and known asbestos containing materials were identified at the Site including thermal

system insulation (TSI) on boilers and steam/air ducting, pipes and fittings, roofing materials, and vinyl floor tile and associated mastics. Other hazardous materials that were identified in the report included small containers of oils and lubricants, electrical equipment, cleaning supplies, and Freon. The report identified an UST of unknown capacity with two feet of remaining diesel product (approximately 200-300 gallons), located behind the building near the bay door. Finally, the report stated bird droppings are common on the top floor of the Office wing and mold growth from roof leaks and water damage is widespread.

5.3 PHYSICAL SETTING SOURCE(S)

The physical setting of the Site is described in the following table:

Physical Setting		
PHYSICAL SETTING INFORMATION FOR SITE AND SURROUNDING AREA		SOURCE
Topography		
<i>Site Elevation</i>	Approximately 920 feet above mean sea level	Knoxville, Tennessee USGS Topographic Map, 1978
<i>Surface Runoff/ Topographic Gradient</i>	Predominantly southeast toward the Tennessee River	
<i>Closest Surface Water</i>	Second Creek is located approximately 0.2 mile east of the Site and continues to flow to the south toward the Tennessee River/Fort Loudon Lake.	
FEMA Map		
<i>Zone/Description:</i>	Zone X: The Site is not located within a flood hazard area.	FEMA Agency Flood Insurance Rate Map Number 47093C0283G, effective August 5, 2013
Soil Characteristics		
<i>Soil Type:</i>	Urban Land	Natural Resources Conservation Service, United States Department of Agriculture, Web Soil Survey, available online at http://websoilsurvey.nrcs.usda.gov/ .
<i>Description:</i>	Urban soils consist of nonsoil areas that have impervious ground cover of buildings, roads, streets, parking lots, and similar structures. The underlying soil is not observable.	

Geology/Hydrogeology		
<i>Formation:</i>	The Valley and Ridge	Geologic Map of Tennessee, East Sheet, 1966
<i>Description:</i>	The subject site is located in the Valley and Ridge Physiographic Province. The Valley and Ridge is characterized by numerous elongated ridges and intervening valleys, all trending in a northeast-southwest direction. Streams are predominantly parallel and perpendicular to the valleys in a trellis pattern. The average elevation of the valleys is about 800 feet (244 m) above Mean Sea Level (MSL). The area is underlain by sedimentary rocks of the Cambrian and Ordovician Geologic ages. These ages are generally dated at about 550 to 480 million years before the present.	
<i>Estimated Depth to First Occurrence of Groundwater:</i>	Based on shallow water depth information provided in the EDR Geocheck section, the depth to shallow water is approximately 5.71 feet.	EDR Radius Map Report with GeoCheck June 3, 2015
<i>*Hydrogeologic Gradient:</i>	Generally south and southwest toward the Tennessee River.	Knoxville, Tennessee USGS Topographic Map, 1978

5.4 HISTORICAL USE INFORMATION ON THE PROPERTY

QE2 personnel reviewed the following sources of historical use information: ownership records, Knox County Register of Deeds records, aerial photographs, historical city directories, Sanborn maps, and historical topographic maps.

5.4.1 Ownership Records

QE2 personnel reviewed the available property ownership information for the Site online at KGIS.org. Additionally, Ms. Wallace provided a plat map dated February 9, 1965 for the Site. Previous owners and parcels included in the Site are identified as: State of Tennessee Supreme Court Property, Pure Oil of Ohio, L. Burgess, C. Bentley, Church-Henley Co. Inc., P.H. McGinnis, Dr. L Caylor, and State of Tennessee (Arnold Hotel Property). Pure Oil of Ohio is discussed further as the location of a gasoline filling station located in the southwest corner of the Site property in Section 5.4.4. The former gasoline filling station owned by Pure Oil of Ohio is considered a REC.

5.4.2 Aerial Photographs

Aerial photographs were obtained through EDR for the years 1939, 1953, 1960, 1973, 1984, 1988, 1992, 1997, 2002, 2006, 2007, 2008, 2010, and 2012. Copies of the aerial photographs are provided in Appendix 14.4. Pertinent on-site and off-site features of the aerial photographs are summarized below.

Historical Aerial Photographs

Date	Source	Scale	On-Site	Off-Site
1939	EDR	1"=500'	The Site appears to be fully developed with several structures on the different parcels that comprise the Site.	The surrounding areas appear to be densely developed with both residential and commercial properties.
1953	EDR	1"=500'	The Site appears as it did in the previous aerial photograph; however, due to the quality and scale of the photograph, distinctions are difficult.	The surrounding areas appear as they did in the previous aerial photograph; however, due to the quality and scale of the photograph, distinctions are difficult.
1960	EDR	1"=500'	Several of the residential structures previously located on the Site have been replaced with larger, commercial structures including the Supreme Court Building.	The surrounding properties also appear to have been renovated with large commercial structures and parking lots replacing residential homes visible to the north, south, and west.
1973	EDR	1"=500'	Several large Site structures have been removed. The only remaining structures are the Supreme Court Building and two buildings in the northwest portion of the Site property.	North of the Site, Church Avenue is visible followed by a large commercial building with parking to the northeast. East of the Site is Locust Street followed by a parking lot and commercial structures further east and southeast. South of the Site is large commercial structures including the Medical Arts Building. West of the Site is Henley Street followed by commercial structures.
1984	EDR	1"=500'	The Site appears as it did in the previous aerial photograph.	The surrounding areas appear as they did in the previous aerial photograph; however, the property to the west, across Henley Street, is vacant and undeveloped. The 1982 Worlds Fair Park is visible beyond.
1988	EDR	1"=500'	The Site has been altered and only the Supreme Court Building and one structure in the northwest corner of the Site is visible.	The surrounding properties appear as they did in the previous aerial photograph with the addition of the Duncan Federal Building to the east.
1992	EDR	1"=500'	The Site appears as it did the day of the Site visit; consisting of the Supreme Court Building and associated parking.	The surrounding areas appear as they did in the previous aerial photograph.
1997	EDR	1"=500'	The Site appears as it did in the previous photograph.	The surrounding properties appear as they did in the previous photograph.
2002	EDR	1"=500'	The Site appears as it did in the previous photograph; however, due to the quality of the photograph, distinctions are difficult.	The surrounding properties appear as they did in the previous photograph with the addition of a large building on the property across Henley Street to the west. However, due to the quality of the photograph, distinctions are difficult.
2006	EDR	1"=500'	The Site appears as it did in the previous photograph.	The surrounding areas appear as they did in the previous aerial photograph.

Historical Aerial Photographs

Date	Source	Scale	On-Site	Off-Site
2007	EDR	1"=500'	The Site appears as it did in the previous photograph.	The surrounding areas appear as they did in the previous aerial photograph.
2008	EDR	1"=500'	The Site appears as it did in the previous photograph.	The surrounding areas appear as they did in the previous aerial photograph.
2010	EDR	1"=500'	The Site appears as it did in the previous photograph.	The surrounding areas appear as they did in the previous aerial photograph.
2012	EDR	1"=500'	The Site appears as it did in the previous photograph.	The surrounding areas appear as they did in the previous aerial photograph.

Based on the review of the historic aerial photographs, the Site was densely developed as residential from at least 1939 until sometime in the 1950s, when most of the former residential structures were replaced with large commercial buildings. The Site continued to develop until sometime prior to 1992 when it was solely the Supreme Court Building with associated parking. The nearby properties to the north, east and west were also residentially developed in 1939 and, over time, were converted to commercial property during the 1950s through the 1970s. Property to the south of the Site appears to have been commercially developed from at least 1939 to the present day.

5.4.3 City Directories

City directories were provided by EDR and reviewed for the years 1965, 1969, 1974, 1978, 1983, 1988, 1992, 1995, 1999, 2003, 2008, and 2013. Occupants of the Site and surrounding properties identified in the historical city directories are summarized below. Due to the large number of listings, only adjoining and nearby properties are listed as well as those properties that might be considered a REC. Addresses with RECs, if found, are listed in the table below in bold. The City Directory Report is provided in Appendix 14.4.

Property	Address/Listings from Historical City Directories
Site	617 Cumberland Avenue: Not listed (2013), District Attorney Gen Conference, TBI Crime Lab, Tenn Dept Veterans Affairs, Tennessee Bureau of Investigation, Tennessee Office Attorney General (2008-1992), State Office Building (1988-1965); 612 W Church Avenue: Vacant (1988), physician's office (1983), 614-616 W Church Avenue: Parking (1988-1983), physician's office (1978-1965); 614-616 W Church Avenue: Safety Park Inc. (1974-1965); 618 W Church Avenue: Boiler Inspection, Child Labor Laws, Elevator Inspection, Labor Board, Wage & Labor Complnt (1995-1992), State Office Building Annex (1988-1969), Armed Forces Induction Center, US Army Station (1965); 716 Henley Street: Torn down (1969), Joe Morris Service Station (1965).

Property	Address/Listings from Historical City Directories
North	600 Henley Street: University of Tennessee, University of Tennessee Medical Center (2013-2003), Alzheimers Disease and Related Disorders Association Knoxville (1999), University of Tenn Advisory Service (1995), Crown American, Hess's Department Str (1992), Miller's Incorporated dept Store (1988-1965) 611 Henley Street: Miller's Tire Service (1978-1974), Henley St Esso Station (1965); 501 W Church Avenue: BB2 Audio Visual, Knoxville Hotel 2004 (2008), Boykin Management Co, Gold Limousine, ITA Meeting Srvc, Knoxville Hilton (2003-1983), Christenberry Infirmary (1978-1974); 523 W Church Avenue: Allright Auto Park (1978-1969); 600-604 W Church Avenue: Millers Inc (1983-1974), Torn down - now Miller's Inc department store (1965); 825 W Church Avenue: Dewayne Flemming (2013).
East	521 Cumberland Avenue: Randal Franklin (2013), Arcade & Parking CPI (1983), Apartments (1974-1965).
South	600 Cumberland Avenue: Charles K Franks Construction Consultants, Robert Bailey, John Walker CPA (2013), general offices (2008-1992), US District Court Judge and offices (1988); 602 Cumberland Avenue: Knox County Legislative Delegation (1983), Vacant (1978), Govs Ofc (1974); 606 Cumberland Avenue: Tenn Industrial Development Div (1983), Tenn Comptroller (1978), Tenn Dept of Education (1974-1969), Master Brake Shop (1969); 612 Cumberland Avenue: Vacant (1974); 620 Cumberland Avenue: Image Point (2013), Knox County Republican Party (2003-1999), Travel Professions Intl (1995-1988).
West	701 Henley Street: Knoxville Convention Center (2013), Shepard Exposition Services Inc., SMG (2008), Allright Auto Park (1983-1978), Credit Thrift of Amer (1974), 715 Henley Street: Tinsley Tire Co (1978-1965); 804-810 Henley Street: Allight Auto Park (1983), Rogers & Co Inc used car lot (1965); 710 Cumberland Avenue: Karnes Parking Lot (1978-1965); 711 Cumberland Avenue: Stand Tire Co; Division Tinsley Tire Co (1978-1965).

According to the historic city directory review the Site has been developed with state government offices, a physician's office, and parking lots from at least 1965 until 2013. On the 1965 city directory, Joe Morris service station is listed at 716 Henley Street. In the 1969 city directory, this facility is listed as "torn down". It is assumed that this facility is the same filling station identified on the Site in the Sanborn maps discussed below in Section 5.4.4. The Joe Morris service station is considered a REC.

Two additional adjacent facilities - the Stand Tire Co./Tinsley Tire Co. (and associated filling station) (west) and the Henley Street Esso Station (northwest) were listed on the city directory and are also identified on the Sanborn maps (detailed below). The possibility exists that contamination may have migrated from these facilities and impacted the Site, therefore each of these offsite facilities is a REC.

No additional RECs were identified based on the review of the available historic tenants at the Site or adjacent properties; however, the city directories were not searched earlier than 1965.

5.4.4 Sanborn Maps

In the late nineteenth century, the Sanborn Company began preparing maps of central business districts for use by fire insurance companies. These maps were updated and expanded geographically periodically through the twentieth century. The Sanborn maps often indicate construction materials of specific building structures and the location of gasoline storage tanks.

Historical fire insurance maps produced by the Sanborn Map Company were requested from EDR to evaluate past uses of the site and adjoining properties. Sanborn Maps were provided by EDR and reviewed for the years 1903, 1917, 1950, and 1968. The EDR Sanborn Maps are provided in Appendix 14.4. The table below summarizes the review of the maps provided:

Date and Source	Property	Description
1890 EDR	Site	The Site appears to be six parcels, developed with six residential structures and several related garages and out buildings.
	North	North of the Site, across W. Church Street, is indicated as residential dwellings.
	East	East of the Site, across Locust Street, residential dwellings are indicated.
	South	Residential dwellings are indicated across Cumberland Avenue.
	West	Across Henley Street, residential dwellings are indicated
1903 EDR	Site	The Site appears to have been subdivided into eight parcels and is still developed with six residential structures; however the previous dwelling indicated in the southeast corner of the Site is no longer indicated and that parcel has been subdivided into three parcels with a dwelling on the middle parcel.
	North	The surrounding areas appear as they did on the previous map.
	East	
	South	
	West	
1917 EDR	Site	The Site appears to have been subdivided again and now consists of nine parcels, developed with multiple residential dwellings and flats with several related auto garages and outbuildings.

Date and Source	Property	Description
	North East South West	The areas surrounding the Site appear to still be developed as residential dwellings.
1950 EDR	Site	Along West Church Avenue, the Site is now developed with offices, a boarding house, and the Hotel Arnold, which is indicated to have been built in 1922 and expanded in 1946. Along Cumberland Avenue, the Site is developed with a dance studio, apartments, and a large parking lot in the southeast corner. Along Henley Street, the Site is developed with two residential dwellings and a concrete construction, gasoline filling station .
	North	A dance studio, parking lot, apartment complex, and store with a gasoline filling station are indicated to the north, across W. Church Avenue with another gasoline filling station indicated to the northeast at 521 W. Church Avenue.
	East	Offices, a store, and two dwellings are indicated to the east across Locust Street.
	South	An auto repair facility and parking lot are indicated to the south of the Site, across Cumberland Avenue with a gasoline filling station located to the southeast at 801 Locust Street.
	West	A parking lot, restaurant, and tire sales and service facility with several gas tanks indicated is located to the west of the Site, across Henley Street.
1968 EDR	Site	Along West Church Avenue, the Site is now developed with two office structures and two parking lots. Along Cumberland Avenue, the Site is developed with the State Office and Supreme Court Building that is indicated to have been built in 1952. Along Henley Street, the Site is developed with three residential dwellings and a gasoline filling station in the southwest corner
	North	A filling station is indicated to the northwest of the Site at 611 Henley Street. North of the Site, Miller's Department Store is indicated to have been constructed in 1955 and the previously identified filling station at 603 West Church Avenue is no longer apparent. The filling station located at 521 West Church Avenue, northeast of the Site and identified on the 1950 Sanborn map, is no longer apparent and the property is now a parking lot.
	East	East of the Site, across Locust Street, appears developed with three office buildings, a store and a parking lot.
	South	Across Cumberland Avenue, a large auto sales and service facility is indicated with a private garage and filling station indicated at 801 Locust Street.
	West	Across Henley Street, a large tire sales & service facility is indicated with four gas tanks .

A gasoline filling station was indicated at 720 Henley Street, on the southwest corner of the Site in the 1950 and 1968 Sanborn maps. The location of any underground storage tanks (USTs) are not indicated. The presence of the filling station and the potential for underground storage tanks or groundwater/soil contamination to be located on the Site is a REC. It is recommended

that further investigation be conducted at the Site to evaluate the presence of remaining USTs and any potential contamination from this facility.

During the review of historic Sanborn maps, several adjacent filling stations were identified on surrounding properties in the 1950 and 1968 Sanborn maps. One filling station is indicated to the northwest, across the intersection of Henley Street and W. Church. Two facilities were identified north of the Site, one facility was identified on the adjacent property to the south of the Site and one facility with gasoline tanks was identified to the west, across Henley Street. The possibility exists that contamination may have migrated from these facilities and impacted the Site, therefore each facility constitutes a REC.

5.4.5 Historical Topographical Maps

Historical topographic maps from 1901, 1936, 1942, 1953, 1968 and 1978 were reviewed for this ESA. Pertinent details of the maps are described below. Copies of the maps are provided in Appendix 14.4.

Historical Topographic Maps

USGS Map/Date	Description
Knoxville, 1901, 1:125,000	The Site and surrounding areas are depicted as developed, part of the downtown city of Knoxville. The scale of the map does not provide details of the Site area.
Knoxville, 1936, 1:24,000	The Site appears developed on the northwest, south and west side with residential property. A larger building (the hotel) is indicated in the northeast corner of the Site. The surrounding properties appear developed with a mixture of residential and commercial properties.
Knoxville, 1942, 1:24,000	The Site and surrounding properties are shaded in, indicating dense, historic development. The post office is indicated to the southeast.
Knoxville, 1953, 1:24,000	The Site and surrounding properties are shaded in, indicating dense, historic development. The State Supreme Court Building is indicated on the Site.
Knoxville, 1968, 1:24,000	The Site appears as it did on the previous maps. The surrounding areas also appear as they did on the previous map.
Knoxville, 1978, 1:24,000	The Site appears as it did on the previous maps. The surrounding areas also appear as they did on the previous map.

No RECs were identified based on a review of the historical topographic maps.

5.5 HISTORICAL USE INFORMATION ON ADJOINING PROPERTIES

The historical uses of the adjoining properties appear to have been primarily residential from at least 1890 until sometime prior to 1939, when commercial development began. By 1968, both the Site and the adjacent properties were commercially developed. During the review of the Sanborn maps and City Directories, adjacent filling stations and facilities identified with gasoline tanks were located on adjacent properties, and are considered RECs.

6.0 SITE RECONNAISSANCE

6.1 METHODOLOGY AND LIMITING CONDITIONS

During the reconnaissance, the Site was traversed on foot to assess the potential for RECs. The Site visit was conducted by Ms. Jessica Lindbom, an Environmental Specialist of QE2 on June 9, 2015. See Section 3.0 for a detailed description of the Site and surrounding areas. Site sketches and a recent aerial photograph depicting the Site and surrounding properties are provided in Appendix 14.2. The Site Visit Checklists and photos documenting the reconnaissance are provided in Appendix 14.3.

6.2 GENERAL SITE SETTING

The Site is located at 617 Cumberland Avenue in Knoxville, Tennessee. Property use in the vicinity is primarily commercial. The Site is bordered to the north by W. Church Avenue with the UT Conference Center followed by the Hilton Hotel to the northeast. The Site is bordered to the east by Locust Street with the Duncan Federal Building and additional commercial property further east. The Site is bordered to the south by Cumberland Avenue with an attorney's office and the Medical Arts Building, a mixed use residential-commercial building. To the west of the Site is Henley Street with the Convention Center beyond.

6.3 EXTERIOR OBSERVATIONS

The following is a list of exterior observations made during the Site visit:

- A. Hazardous Substances or Petroleum Products – No hazardous substances or petroleum products were observed at the Site during the exterior assessment; however, as noted below, the potential exists for petroleum product in or from an old UST.
- B. Storage Tanks – No exterior above-ground storage tanks were observed during the Site reconnaissance. Based on a previous *Hazardous Materials Screening Report* by QE2 dated September 19, 2012; an underground storage tank of unknown capacity is located behind the building near the bay door. According to the previous report, during the assessment, the UST of unknown capacity was observed with 2 feet of remaining diesel product (approximately 200-300 gallons). An unmarked access port was observed in this area and it is assumed to be the access for the UST. This is considered a REC.

- C. Air Emissions or Odors – No air emissions or odors were observed during the Site reconnaissance.
- D. Pools of Liquid – No pools of liquid that would be considered hazardous were observed during the Site reconnaissance.
- E. Drums – No drums or containers were observed during the exterior assessment.
- F. Polychlorinated Biphenyls (PCBs) – No transformers were observed during the Site assessment.
- G. Pits, Ponds, Lagoons, or Standing Surface Waters – No pits, ponds, lagoons or standing surface waters were observed on the Site. Several storm water drains were observed in the parking lot, predominantly on the west side. No issues or concerns were identified with the storm water drains.
- H. Stained Soil or Pavement – Minor staining was observed in the parking lot, a result of leaking parked cars. The observed *de minimis* areas of staining do not appear to constitute a REC at this time.
- I. Stressed Vegetation – No stressed vegetation was observed.
- J. Solid Waste – Since the building is currently vacant, there were no solid waste dumpsters located on the Site property.
- K. Waste Water – Waste water service is provided to the Site by the Knoxville Utilities Board.
- L. Wells – No wells were observed onsite.
- M. Septic Systems – There is not a septic system connected to the Site.

6.4 INTERIOR OBSERVATIONS

The following is a list of interior observations made during the Site visit:

- A. Hazardous Substances or Petroleum Products – Small, individually labeled containers of cleaning solution were observed in several janitorial closets on each floor and in the maintenance area. Small containers of oils and lubricants, electrical equipment, and Freon are also present in the maintenance area and in the elevator equipment room. Fire extinguishers are stored in the Court wing warehouse. These containers were labeled and no stains or leaks were observed; therefore, they are not considered a REC.
- B. Storage Tanks – Several, approximate 30-gallon containers of additive for the water system was observed in the basement and maintenance area. These containers were labeled and no stains or leaks were noted.
- C. Air Emissions or Odors – No emissions or odors were noted in the building.
- D. Pools of Liquid – No pools of liquid were present during the reconnaissance. A sump pump was observed within the basement area of the building.
- E. Storage Drums – No storage drums were observed during the interior assessment.

- F. Polychlorinated Biphenyls (PCBs) – No PCB-containing equipment was observed other than fluorescent light fixtures with potentially PCB-containing ballasts.
- G. Stained Building Materials – Several compressors, generators and elevator equipment was observed with minor leaks or stains. None of the equipment was in operation at the time and floor drains were not noted in the vicinity of the equipment. Based on the Site observations, the stained and leaking equipment is not a REC; however, they should be repaired and properly cleaned prior to use.
- H. Floor Drains – Floor drains were not observed at the Site.
- I. Heating/Cooling – Based on observation, the Site used a boiler/chiller loop system as well as natural gas to heat/cool the on-Site building. The boiler system was observed in the basement area and a roof-mounted chiller was noted over the Supreme Court area.

7.0 INTERVIEWS

Mr. Bryan Bathon, the property manager with Jones Lang LaSalle was interviewed during the Site reconnaissance. Mr. David Bokenkamp of the Knoxville Fire Department was contacted to determine if the Knoxville Fire Department has had any emergency calls or environmental issues at the Site. A summary of the interviews is provided below. An Interview Checklist is provided in Appendix 14.7.

7.1 INTERVIEW WITH OWNER

The current Site owner is listed as the State of Tennessee. Jones Lang LaSalle manages the Site and interview information is provided below. The Site owner was not interviewed.

7.2 INTERVIEW WITH SITE MANAGER

Mr. Bryan Bathon, the property manager with Jones Lang LaSalle was interviewed during the Site reconnaissance. According to Mr. Bathon, the approximately 68,000 square foot building was built in 1952 and was historically used as the State Supreme Court building as well as offices for State of Tennessee departments including the TBI. He stated that the Site has been vacant for approximately seven (7) years and has been utilized as a monitored parking for State employees since that time. He stated that he knew of no previous issues or concerns with the Site.

7.3 INTERVIEW WITH OCCUPANTS

The Site building is currently vacant and there were no occupants to interview.

7.4 INTERVIEWS WITH LOCAL GOVERNMENT OFFICIALS

Mr. David Bokenkamp, with the City of Knoxville Fire Department, was contacted to determine if there have been any emergency responses or environmental concerns related to the Site. An

official Site assessment request was filled out and sent via email to Mr. Bokenkamp. According to his response there are no aboveground or underground tank permits on file with the Knoxville Fire Department. Additionally, there are no outstanding fire code violations, hazardous materials response or fire response activities listed on their database. Mr. Bokenkamp stated that being a Federal building, the State has the jurisdiction to conduct inspections, not the City of Knoxville. The interview checklist is provided in Appendix 14.10. The City of Knoxville Fire Department Site Assessment is provided in Appendix 14.11

7.5 INTERVIEWS WITH OTHERS

No additional interviews were conducted.

8.0 FINDINGS AND OPINIONS

This Phase I ESA was performed in accordance with QE2 proposal number 2015-048, and in general accordance with the consensus document known as ASTM E 1527-13, a guide for conducting Environmental Site Assessments and ASTM Standard E2600-10, Standard Guide for Vapor Encroachment Screening on property involved in real estate transactions.

The Site is comprised of an approximate 2.0-acre tract of land that has been improved with a six-story plus a penthouse, approximate 68,000 square feet, cinderblock building that was historically developed as the State Supreme Court facility. The building onsite has been vacant since approximately 2007. The Site is also improved with a small guard shack, associated asphalt-paved driveway and parking areas, and landscaping.

On June 9, 2015, QE2 conducted a site visit in support of a Phase I ESA of the Old Supreme Court Building located at 617 Cumberland Avenue in Knoxville, Knox County, Tennessee. The Site is identified as Parcels 11, 12, 13, 14, and 15 of Knox County Tax Map 94. The property owner is recorded as the State of Tennessee. Previous owners and parcels that comprise the Site are identified as: State of Tennessee Supreme Court Property, Pure Oil of Ohio, L. Burgess, C. Bentley, Church-Henley Co. Inc., P.H. McGinnis, Dr. L Caylor, and State of Tennessee (Arnold Hotel Property). Pure Oil of Ohio is indicated at the location of a gasoline filling station in a historic Sanborn map located in the southwest corner of the Site property. The former gasoline filling station owned by Pure Oil of Ohio is considered a REC. According to reviewed historical information, the Site was densely developed as residential from at least 1890 until sometime in the 1950s, when most of the former residential structures were replaced with large commercial buildings. The Site continued to develop until sometime prior to 1992 when it was solely the Supreme Court Building with associated parking. Based on review of historic city directories and Sanborn maps, a gasoline filling station was indicated at 716-720 Henley Street, on the southwest corner of the Site in the 1965 city directory and on the 1950 and 1968 Sanborn

maps. In QE2's professional opinion, this is the same facility as the Pure Oil facility. It is recommended that further investigation be conducted at the Site to evaluate the presence of remaining USTs and any potential contamination from this facility.

No exterior above-ground storage tanks were observed during the Site reconnaissance. Based on a previous *Hazardous Materials Screening Report* by QE2 dated September 19, 2012; an underground storage tank (UST) of unknown capacity is located behind the building near the bay door. According to the previous report, the UST of unknown capacity was observed with two (2) feet of remaining diesel product (approximately 200-300 gallons). An unmarked access port was observed in this area and it is assumed to be the access for the UST. This is considered a REC.

The Site was identified in the Environmental Data Resources, Inc. (EDR) regulatory report on the EPA FINDS database. According to a representative with the Knox County Air Quality Management office, the Site was historically the location of an ambient air monitoring station. The monitoring station was moved to the new Supreme Court Building when the Site building was closed. The Site building is also equipped with an incinerator in the basement. This incinerator may have historically had an air emissions permit; however, it was not listed on the EDR report, and there was not one on file in the EPA Envirofacts database. According to the EPA Envirofacts database, FRS Facility Detail Report, the Site is listed as an Air Monitoring Site. The listing of the Site on the FINDS database is not considered a recognized environmental condition (REC).

A total of forty-one additional facilities were listed in the EDR report (some facility addresses were listed more than once). Based on distance, current status, and/or topographic gradient from the Site, none of the identified facilities appear to be a REC or a VEC to the Site. Additionally, EDR reported nine unmapped (orphan) facilities. None of the listed facilities were observed to be adjacent or nearby to the Site during the Site reconnaissance and are not considered a REC.

During the review of City Directories and Sanborn maps, several filling stations were identified on adjacent properties. One facility was identified to the northwest, two facilities to the north, one facility to the south, and two facilities to the west, across Henley Street. Although no physical evidence or historical record of contamination release was noted during the current assessment, contamination may have migrated from these facilities and impacted the Site, constituting a REC. The adjacent locations have been redeveloped, and are now mostly occupied by large multi-story structures with deep foundations. During the construction of the large structures, any existing USTs and associated contamination would likely have been

removed or assessed. The possibility of contamination on the Site from these former off site filling stations is low, however further investigation would be necessary to confirm or deny any impacts to the Site.

9.0 CONCLUSIONS

QE2 has performed a *Phase I Environmental Site Assessment* in conformance with the scope and limitations of ASTM Practice E 1527-13 and ASTM Standard E2600-10, Standard Guide for Vapor Encroachment Screening for the Old Supreme Court Building located at 617 Cumberland Avenue in Knoxville, Tennessee. Any exceptions to, or deletions from, this practice are described in Section 10.0 of this report. This assessment has revealed evidence of **recognized environmental conditions (RECs)** in connection with the property.

QE2 recommends performing a Phase II investigation to assess the potential for subsurface contamination on the Site. The assessment should be designed to investigate possible contamination from onsite and offsite sources.

Based on the date of construction of the building and a review of the previous *Hazardous Materials Screening Report*, several building materials were found to contain or are assumed to be asbestos-containing materials (ACMs). It is recommended that a comprehensive hazardous materials survey and sampling event be conducted to ensure the environmentally compliant handling and disposal of all hazardous or special wastes, in accordance with all State, and Federal regulations, if renovation or demolition is planned.

10.0 DEVIATIONS

No significant deviations or data gaps were noted which would affect the ability of the environmental professional to identify RECs.

11.0 ADDITIONAL SERVICES

No additional services were performed in conjunction with this report.

13.0 SIGNATURE OF ENVIRONMENTAL PROFESSIONALS

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject properties. I have developed and performed or provided oversight of the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312. A copy of my resume with proof of qualifications is provided in Appendix 14.9.

QUITCLAIM DEED

THIS INDENTURE is made this 19 day of February, 2008,
by and between the CITY OF KNOXVILLE, a municipal corporation created under the
laws of the State of Tennessee, hereinafter referred to as "Grantor," and THE STATE OF
TENNESSEE, hereinafter referred to as "Grantee."

WITNESSETH:

Grantor, for and in consideration of the sum of Ten Dollars (\$10.00) to it in hand
paid by Grantee, the receipt of which is hereby acknowledged, has bargained, sold,
remised, released and quit claimed and does hereby bargain, sell, remise, release and quit
claim unto Grantee the following described premises, to wit:

Situated, lying and being in the First Civil District of Knox County, Tennessee,
and within the 6th Ward of the City of Knoxville, Tennessee, and being more particularly
described as follows:

BEGINNING at the point of intersection of the northeast right-of-way line of
Henley Street and the northwest right-of-way line of a nameless alley in City Block
04043, said beginning point being located approximately 147 feet southeast of the point
of intersection of the southeast right-of-way line of Church Avenue and the northeast
right-of-way line of Henley Street, and said beginning point also being the southwest
corner of County Tax Parcel 94-M, C-11; thence northeasterly along the northwest right-
of-way line of the aforesaid alley approximately 286 feet to the point of intersection of
said line and the southwest right-of-way line of Locust Street; thence southeasterly along
the southwest right-of-way line of Locust Street approximately 10 feet to the point of
intersection of said line and the southeast right-of-way line of the alley described herein;
thence southwesterly along the southeast right-of-way line of said alley approximately
286 feet to the point of intersection of said line and the northeast right-of-way line of
Henley Street; thence northwesterly along the northeast right-of-way line of Henley
Street approximately 10 feet to the point of beginning.

Instr: 200802220062770 Page: 1 OF 3
REC'D FOR REC 02/22/2008 1:07:21PM
RECORD FEE: \$17.00
M. TAX: \$0.00 T. TAX: \$0.00

Being an unnamed alley closed by Ordinance No. O-108-88, duly enacted by the Council of the City of Knoxville on June 28, 1988.

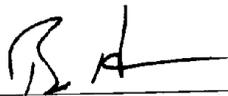

This conveyance is subject to all applicable easements, right-of-ways, restrictions and any other applicable encumbrances.

This conveyance was approved on February 12, 2008, by the Knoxville City Council by Resolution No. R-54-08.

The preparer of this deed and the City make no representations as to the status of title or ownership of this property.

IN WITNESS WHEREOF, the City has caused this instrument to be executed on the date first above written.

CITY OF KNOXVILLE

WARRANTY DEED (CORPORATION)

INSTRUMENT NO.

THIS INDENTURE, made this 21st day of April 1986 between REFORMED THEOLOGICAL SEMINARY, a non-profit corporation

organized and existing under the laws of the State of Tennessee with its principal place of business in Knox County, Tennessee, First Party, and SAFETY-PARK, INC.

of Knox County, Tennessee, Second Parties,

WITNESSETH: that said First Party, for and in consideration of the sum of One and 00/100 Dollars (\$ 1.00) and other good and valuable considerations to it in hand paid by said Second Parties, the receipt of which is hereby acknowledged, and the

C1 * 600
CE * 1600
CG * 050

has granted, bargained, sold, and conveyed and does hereby grant, bargain, sell and convey unto the said Second Parties the following described premises, to-wit: Situated in District No. One of Knox County, Tennessee,

SITUATE in District No. One (1) of Knox County, Tennessee, and in the Fourth Ward of the City of Knoxville, Tennessee, and more fully described as follows:

BEGINNING at the west side of a stone corner located on the South side of West Church Avenue in said City, 48 feet 8 inches East from the original Southeast corner of Church Avenue and Henley Street; thence, Eastwardly along the South line of Church Avenue, 48 feet, more or less, to the corner of a lot now or formerly owned by R. W. Austin; thence, Southwardly with Austin's line 145.5 feet, more or less, to a stake in the North line of an alley; thence, Westwardly with the North line of said alley, 46 feet 5 inches, more or less, to the West side of a stone corner located at the Southeast corner of a building; thence, Northwardly along the East line of said building, 21 feet, more or less, to the Northeast corner of said building; thence, Westerly with the North line of said building 2 feet 9 inches, more or less, to the West side of another stone corner; thence, Northerly on a line with the West side fo two stones standing on the East of this line, 124.2 feet to the place of BEGINNING: but excluding from the above described tract that certain strip conveyed to S. G. Heiskell by J. W. Brownlee and wife, Glen Walker Brownlee by deed, dated the 6th day of May, 1912, recorded in Deed Book 263, page 189 as follows: BEGINNING at a point in the West line of Mrs. Glen Walker Brownlee's lot, 35 feet Northerly on said line from the North line of an alley; thence, with said West line Southerly 12 feet 8 inches to the Southwest corner of a square stone market set in the ground; thence, Eastwardly with Mrs. Brownlee's line 2 feet 6 inches to the Northeast corner of a frame building; thence, Northerly, parallel with the first line 12 feet 8 inches to a point located 49 feet 10 inches Eastwardly from the East line of Henley Street, thence, Westwardly 2 feet 6 inches to the place of BEGINNING.

BEING the same property conveyed to the Reformed Theological Seminary by deed dated December 31, 1981, of record in Deed Book 1750, page 685 in the Register's Office of Knox County, Tennessee.

RECEIVED
MAY 3
STEV

with the hereditaments and appurtenances thereto appertaining, TO HAVE AND TO HOLD the said premises to the said Second Parties, their heirs and assigns forever.

And said First Party, for itself and for its successors and assigns does hereby covenant with said Second Parties, their heirs and assigns, that it is lawfully seized in fee simple of the premises above conveyed and has full power, authority and right to convey the same, and that said premises are free from all encumbrances except

and that it will forever warrant and defend the said premises and the title thereto against the lawful claims of all persons whomsoever.

Whenever in this instrument a pronoun is used it shall be construed to represent either singular or plural, as the case may demand.

IN WITNESS WHEREOF the said First Party has caused this instrument to be executed and its name to be signed hereto by its President and attested by its Secretary by authority of its Board of Directors the day and year first above written.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. **NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OR DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT.** Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

Copyright 2015 by Environmental Data Resources, Inc. All rights reserved. Reproduction in any media or format, in whole or in part, of any report or map of Environmental Data Resources, Inc. or its affiliates is prohibited without prior written permission.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

Contact: Alison Campbell

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Quantum Env. & Eng. Svcs., LLC were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrmet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site List

CERC-NFRAP: Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

A review of the CERC-NFRAP list, as provided by EDR, and dated 10/25/2013 has revealed that there is 1 CERC-NFRAP site within approximately 0.5 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<i>SPRAGUE ELECTRIC COM</i>	<i>. N 0.1 Y H03 Y</i>	<i>NNE 1/4 - 1/2 (0.254 mi.)</i>	<i>42</i>	<i>73</i>

State- and tribal - equivalent NPL

SHWS: The State Hazardous Waste Sites records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. The data come from the Department of Health & Environment's Promulgated Sites.

A review of the SHWS list, as provided by EDR, and dated 02/11/2015 has revealed that there are 2 SHWS sites within approximately 1 mile of the target property.

State and tribal voluntary cleanup sites

VCP: The Voluntary Cleanup Oversight and Assistance Program (VOAP) offers people the opportunity to work proactively with state government to address necessary cleanup of a property to return it to productive use. In return for their efforts, participants can receive a No Further Action letter and a release of liability for areas where investigation and cleanup is conducted. The program is open to everyone with an interest in addressing contamination at a site.

A review of the VCP list, as provided by EDR, and dated 04/06/2015 has revealed that there is 1 VCP site within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/09/2014 has revealed that there are 18 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

US BROWNFIELDS:
 Recipient name: Knoxville, City of
 Grant type: Assessment
 Property name: FORMER BAPTIST HOSPITAL - PARCEL 2
 Property #: 109AA00201
 Parcel size: 3
 Property Description: The property is currently developed with a vacant medical professional building, associated parking lots, and a concrete water cooling structure. The medical professional building primarily contains medical office suites on seven floors. Historical documentation indicates the property has been occupied by medical facilities in the past. Prior to construction of the professional building in 1956, the property appears to have been vacant.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent NPL

SHWS: Promulgated Sites

"Inactive hazardous substance sites that constitute an imminent, substantial danger" is an inactive hazardous substance site where there is a threat of danger to the public health, safety, or environment which is both real and presently existing. Such situations may include, but are not limited to one or more of the following: an immediate action is necessary to minimize an ongoing threat to the public health or pollution of the environment, an inactive hazardous substance site where there is an active release, where direct access to the hazardous substance is not controlled, or where incompatible hazardous substances are found in close proximity. Also known as Promulgated Sites List.

State and tribal voluntary cleanup sites

VCP: Voluntary Cleanup, Oversight and Assistance Program Sites

The Voluntary Cleanup Oversight and Assistance Program (VOAP) offers people the opportunity to work proactively with state government to address necessary cleanup of a property to return it to productive use. In return for their efforts, participants can receive a No Further Action letter and a release of liability for areas where investigation and cleanup is conducted. The program is open to everyone with an interest in addressing contamination at a site.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

CDL: Registry of Contaminated Properties

Pursuant to TCA 68212509 the following properties have been quarantined because of methamphetamine production, but have not been cleaned and certified within the 60day time frame allotted by the statute. These properties are hereby registered by the Tennessee Department of Environment and Conservation as unremediated methamphetamine sites. This is not a comprehensive list of quarantined properties. These are properties that TDEC has been notified as being quarantined, but have not been cleaned within the 60 day grace period. Other properties where methamphetamine production residues are a concern may not have been quarantined, may not have been reported to TDEC, or may not have passed the 60day grace

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR US Hist Auto Stat: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 07/30/2013	Source: Department of Energy & Environmental Protection
Date Data Arrived at EDR: 08/19/2013	Telephone: 860-424-3375

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health
Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics
Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics
Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Child Care Listing

Source: Department Of Human Services
Telephone: 615-313-4778

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetlands Inventory
Source: Tennessee Spatial Data Server
Telephone: 931-528-6481

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

Longitude (West):	83.9205 - 83° 55' 13.80"
Universal Tranverse Mercator:	Zone 17
UTM X (Meters):	236612.1
UTM Y (Meters):	3983410.8
Elevation:	920 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	35083-H8 KNOXVILLE, TN
Most Recent Revision:	1978

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

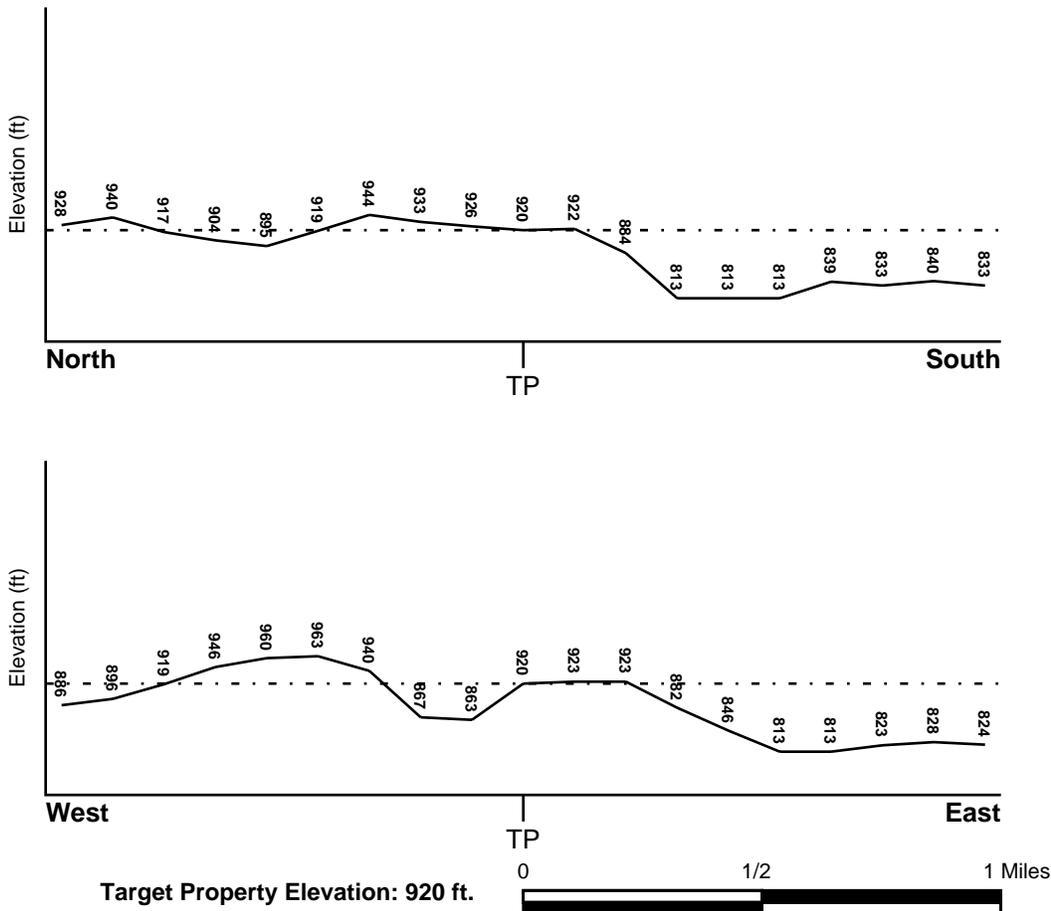

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Target Property County</u> KNOX, TN	<u>FEMA Flood Electronic Data</u> YES - refer to the Overview Map and Detail Map
Flood Plain Panel at Target Property:	47093C - FEMA DFIRM Flood data
Additional Panels in search area:	Not Reported

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u> KNOXVILLE	<u>NWI Electronic Data Coverage</u> YES - refer to the Overview Map and Detail Map
---	---

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
E23	1/2 - 1 Mile ESE	N E

For additional site information, refer to Physical Setting Source Map Findings.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Paleozoic
System:	Cambrian
Series:	Cambrian
Code:	C (decoded above as Era, System & Series)

GEOLOGIC AGE IDENTIFICATION

Category: Stratified Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name:	FULLERTON
Soil Surface Texture:	cherty - silt loam
Hydrologic Group:	Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.
Soil Drainage Class:	Well drained. Soils have intermediate water holding capacity. Depth to water table is more than 6 feet.

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: HIGH

Depth to Bedrock Min:	> 60 inches
Depth to Bedrock Max:	> 60 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Permeability Rate (in/hr)	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	15 inches	cherty - silt loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel. COARSE-GRAINED SOILS, Gravels, Gravels with fines, Clayey Gravel.	Max: 2.00 Min: 0.60	Max: 5.50 Min: 4.50
2	15 inches	19 inches	cherty - silty clay loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 2.00 Min: 0.60	Max: 5.50 Min: 4.50
3	19 inches	90 inches	cherty - clay	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	FINE-GRAINED SOILS, Silts and Clays (liquid limit 50% or more), Elastic silt.	Max: 2.00 Min: 0.60	Max: 5.50 Min: 4.50

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: silt loam
cherty - loam

Surficial Soil Types: silt loam
cherty - loam

Shallow Soil Types: No Other Soil Types

Deeper Soil Types: cherty - silty clay loam
very cherty - silty clay
clay
cherty - silt loam
silty clay loam
silt loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetlands Inventory

Source: Tennessee Spatial Data Server

Telephone: 931-528-6481

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

State Database: TN Radon

Source: Department of Environment & Conservation

Telephone: 615-299-9725

Radon Test Results

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

	Slide or Slip		
	Sodic Spot		

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:12,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
 Web Soil Survey URL: <http://websoilsurvey.nrcs.usda.gov>
 Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Knox County, Tennessee
 Survey Area Data: Version 11, Sep 12, 2014

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Data not available.

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Map Unit Legend

Knox County, Tennessee (TN093)			
Map Unit Symbol	Map Unit Name	Acres in AOI	Percent of AOI
Ur	Urban land	2.6	100.0%
Totals for Area of Interest		2.6	100.0%

SITE RECONNAISSANCE CHECKLIST AND INTERVIEW DOCUMENTATION

QE2 Site Reconnaissance Checklist

Inspected by: Jessica Lindbom

Date: 6/9/2015

Property Information:

Project Name/No: Former State Supreme Court Building

Key Site Manager: Ron Laws/Bryal Bathon-Jones Lang LaSalle Phone #: 423-268-1825

Location/address: 617 Cumberland Avenue

City: Knoxville

County: Knox

State: TN

Zip Code:

Property Details:

Size of property: 2 ac (square feet or acres)

General Site Topography: slopes to west and south Nearest Surface Water: Second Creek and Tennessee River

Structures (if yes, list below): [X] Yes [] No # of structures: 1

Building #1 Name/Use: Main facility

Size: 68,000 Year built: 1951/1952

Type of construction: concrete block and poured concrete (wood frame, block, steel, etc.)

Heating Source: boiler, gas, and chiller (electric, gas, propane, fuel/heating oil, etc.)

Building #2 Name/Use:

Size: Year built:

Type of construction: (wood frame, block, steel, etc.)

Heating Source: (electric, gas, propane, fuel/heating oil, etc.)

Building #3 Name/Use:

Size: Year built:

Type of construction: (wood frame, block, steel, etc.)

Heating Source: (electric, gas, propane, fuel/heating oil, etc.)

Building #4 Name/Use:

Size: Year built:

Type of construction: (wood frame, block, steel, etc.)

Heating Source: (electric, gas, propane, fuel/heating oil, etc.)

Current use(s) and/or occupants: currently vacant. According to Site contact, closed at least 7 years (since 2007)

Comments: Minor cleaning and bug spray noted in janitorial closets. There is a photo cell on the guard shack that operates an emergency light after hours, otherwise there is no power to the Site.

Site Utilities:

Water: KUB

Electric: KUB

APPENDIX 14.8

SPECIAL CONTRACTUAL CONDITIONS BETWEEN USER AND ENVIRONMENTAL PROFESSIONAL

No special contractual conditions exist between the User and the Environmental Professional beyond the standard contract.

APPENDIX 14.9

QUALIFICATION(S) OF THE ENVIRONMENTAL PROFESSIONAL(S)

Jessica Lindbom

QUANTUM ENVIRONMENTAL & ENGINEERING SERVICES, LLC

Senior Environmental Technologist

Years in Environmental Services - 27

Years with Company - 7

EDUCATION:

B.S., Biology and Marine Science, University of Alabama, Tuscaloosa, Alabama 1988

REGISTRATIONS:

Asbestos Inspector, Tennessee, A-1-58301-8464

Lead Based Paint, Inspector - Tennessee, TNLBP2010-2277-4483I

OTHER PROFESSIONAL QUALIFICATIONS:

40 hour OSHA Hazardous Waste Operations Training, Hazardous Waste Site Sampling, Radiation Worker Training, Radiological Response Team Member, ASTM E1527-97 Standard Practice for Environmental Site Assessments, Wetland Identification and Delineation, Water Quality Standards, Habitat Assessment and Rapid Bioassessment Protocols

EMPLOYMENT HISTORY:

Quantum Environmental & Engineering Services, LLC	2009 – Present	Sr. Environmental Technologist
Terracon Consultants, Inc, Nashville, TN	1999 – 2009	Project Manager/Biologist
ATC Associates, Inc., Nashville, TN	1996 – 1999	Project Manager/Biologist
TDEC/Dept. of Energy Oversight, Oak Ridge, TN	1991 – 1986	Supervisor, Division of Environmental Monitoring
Fulton County Env. Health Dept, Atlanta, GA	1989 – 1991	Environmental Specialist
Newfound Harbor Marine Institute, Big Pine Key, FL	1989	Instructor

RELEVANT EXPERIENCE:

Ms. Lindbom has provided consulting services for a variety of clients from the private and public sectors including Fortune 500 retail corporations, petroleum distributors, local and state government, nationwide assisted living facilities, national banking, financing, communication, and mining corporations. These services included project management, and/or surveys with Phase I/Phase II ESAs, asbestos and lead inspections, air quality assessments, lead-based paint, and radon testing. Ms. Lindbom is also trained in and has provided consulting services for wetland determinations and/or delineations, threatened and endangered species surveys and NEPA Environmental Assessments and reviews.

While working for the State of Tennessee, she supervised a staff of five environmental specialists in environmental sampling and compliance monitoring on the Department of Energy (DOE), Oak Ridge Reservation. During that time she also served as a statewide technical program specialist, providing consultative or educational services in the area of sampling, methodologies, or development of programs. She supervised and participated in performing environmental risk studies of pollution and its effects; developed standards and prepared reports of findings submitted to the DOE and the public.

Helen S. Hennon, P.E.

QUANTUM ENVIRONMENTAL & ENGINEERING SERVICES, LLC

Senior Project Manager

Years in Environmental Services	21
Years with Company	10

EDUCATION:

M.S., Environmental Engineering, University of Tennessee, Knoxville, 1994

B.S., Civil Engineering, Tennessee Technological University, Cookeville, 1992

EMPLOYMENT HISTORY:

Quantum Environmental & Engineering Services, 2003- Present, Principal

Environmental Systems Corporation, 1993 – 2003, Director of Government Services/Senior Engineer

Environmental Engineer, State of Tennessee, TDEC, Air Pollution Control Board Member 2003

Waste Management Research & Education Institute, University of Tennessee, 1992-1993, Graduate Research Assistant

Tysinger, Hampton & Partners Civil and Environmental Engineering, Civil/Environmental Engineer

REGISTRATIONS:

Registered Professional Engineer, Tennessee (00103423)

SPECIAL QUALIFICATIONS:

TDEC Air Pollution Control Board Member, Representing the Professional Engineering Societies

40-Hour OSHA Hazardous Waste Operations Training

HUD Training for NEPA work

REVELANT EXPERIENCE:

Ms. Hennon worked her way from Engineering Intern to Principal at QE2 and its predecessor company ESC over the course of 15 years. She leads the Environmental Services group and she is an expert in many different technical areas, including the National Environmental Policy Act, hazardous materials assessments and abatement, permitting (air, water, natural resources impacts, and waste permitting) demolition design, fueling system design and regulatory criteria.

Ms. Hennon is a member of the State of Tennessee Air Pollution Control Board and has served in that capacity since 2006. Important regulatory decisions and laws related to air pollution control are made by that Board. Ms. Hennon oversees the environmental staff and provides final review for most environmental documents, including all NEPA driven documents. She interacts with clients, and represents them at public meetings and forums. Ms. Hennon also conducts project work, and her technical expertise encompasses areas such as environmental assessments and categorical exclusions for NEPA driven projects; Phase I Environmental Site Assessments; hazardous materials such as asbestos lead, ozone depleting substances, lead, mercury, and others; hazardous chemical storage management; USTs and ASTs; corrective action plan design and implementation; environmental regulatory compliance audits; SPCC planning; air permitting; Aquatic Resource Alteration Permitting and USACE 401 Water Quality Certifications; landfill leachate and environmental investigations; public relations related to environmental issues, NPDES permitting, and environmental related design and construction.

APPENDIX 14.10

USER QUESTIONNAIRE

USER QUESTIONNAIRE

In order to qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the USER must provide the following information (if available) to the environmental professional. Failure to provide this information could result in a determination that "all appropriate inquiry" is not complete.

Completed by: Anne Wallace

(please print)

Date: June 11, 2015

Explain your relation/involvement in this transaction: Purchaser's representative

(Example: purchaser, owner, etc.)

SITE INFORMATION

Site Name: Former State Supreme Court Site Current Use: Vacant

Address: 719 Locust St, 617 Cumberland Avenue, 0 W. Church, 614, 618, 624 W. Church, City: Knoxville State: TN

(include map, if available, showing property boundaries – See attached maps)

Size of property: 1.97 AC Structures: Office and courthouse building = 36,375' sq. and 52,776' sq. office building; buildings were constructed in 1952-5953; the rest of the lot, more than half, is surface parking.
(acres) (size, use, year built)

Site Contact: Bob Whetsel (Director of Redevelopment, City of Knoxville) Contact Phone #: 865-215-2543
(indicate relation to user)

Owner Name: State of Tennessee (Mr. Ron Coulter)

Contact Phone #: 615-232-1175

Occupants Name: N/A

Contact Phone #: N/A

Occupants Name: _____

Contact Phone #: _____

Occupants Name: _____

Contact Phone #: _____

Reason for Phase I ESA: The City of Knoxville is interested in purchasing the property for redevelopment.

(examples: sale, purchase, or refinance of property; purchase of business; lease of property, etc.)

1. **Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25).**

Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law? _____ YES X NO

Explain/comment: I am not aware of any environmental cleanup liens on the property.

2. **Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).**

Are you aware of any AULs, such as engineering controls, land use restrictions, deed notifications, or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law? _____ YES X NO

Explain/comment: I am not aware of any activity and land use limitations on the property.

USER QUESTIONNAIRE (continued)

3. **Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).**
As the user of this ESA do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have a specialized knowledge of the chemicals and processes that are used by this type of business. YES NO

Explain/comment: I do not have any specialized knowledge or experience on the property.

4. **Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29).**
Does the purchase price being paid for this property reasonably reflect the fair market value of the property? YES NO

If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?
 YES NO

Explain/comment: The city is negotiating with the State of Tennessee regarding the purchase price of the property given the likely presence of recognized environmental conditions.

5. **Commonly known or reasonably ascertainable information about the property (40 CFR 312.30).**

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user,

- a. Do you know of past uses of the property? YES NO
- b. Do you know of specific chemicals that are present or once were present at the property? YES NO
- c. Do you know of spills or other chemical releases that have taken place at the property? YES NO
- d. Do you know of any environmental cleanups that have taken place at the property? YES NO

Explain/comment on any YES answers: The property was developed for the State Supreme Court in Knoxville, TN and the associated offices uses for state employees. The property has been vacant since the court moved into other facilities.

USER QUESTIONNAIRE (continued)

- 6. The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).**

As the user of this ESA, based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of contamination at the property? YES NO

Explain/comment on any YES answer: A screening was performed by QE2 at the request of the state to determine the presence of asbestos-containing materials, lead-based paint, and other hazardous materials at this site and a copy of that screening report was provided to the City.

- 7. Title Records.**

As the user of this ESA, do you have any title records for the property? YES NO
If yes, please submit.

Explain/comment: (Please list known previous owners) It is our understanding that Title reports have not yet been generated for this site by its current owner, the State of Tennessee.

- 8. Please provide the names of all other parties who will rely on the Phase I ESA.**

Future developers/responsive applicants to the city's request for proposals or qualifications may rely on the Phase I ESA.

- 9. Please provide a Scope of Services desired for the Phase I ESA (i.e. beyond the scope of the ASTM 1527-05 standard practice for Phase I ESAs).**

The city is contracting with QE2 to conduct a Phase I ESA in general accordance with ASTM Standard Practice, and Standard Guide for Vapor Encroachment Screening.

- 10. Please list any special terms or conditions for the Phase I ESA which must be agreed upon by the environmental professional.**

None known.

RE: Site Assessment Request

Dear Ms. Lindbom,

Per your request on 6/16/15, a site assessment was conducted on 6/17/15 for the property addressed as 617 Cumberland Avenue in Knoxville TN. A search of our records resulted in the following information:

Aboveground Tank Permits: No permits on file

Underground Tank Permits: No permits on file

Hazardous Materials Response: None listed

Fire Response: None listed

Outstanding Fire Code Violations: None listed – Being a Federal building, the State has the jurisdiction to conduct inspections, not the City of Knoxville.

Should you have any questions or concerns about the results of this site assessment, please contact me at 865.215.2283.

Sincerely,

A handwritten signature in black ink that reads "David Bokenkamp".

David Bokenkamp
Office Assistant II
